Declaration of Compliance

Innovative Plastics is committed to ensuring the highest level of compliance across the many standards that govern various industry management systems. This statement is provided in response to requests by contractors, designers and end users of Innovative Plastics manufactured sheet materials for regulatory compliance information.

Please note that Innovative Plastics does not routinely analyze for additional substances that are not listed in our SDS documents. Unless otherwise indicated, the information provided is based on information from raw material suppliers, product composition and our manufacturer's process. Information on any OSHA hazardous components above 1% (by weight) and carcinogens above 0.1% (by weight) is provided in Section 3 of Innovative Plastics's Safety Data Sheets (SDS).

Be advised that this document pertains strictly to Innovative Plastics sheet manufactured in the United States.

California Proposition 65

Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The Proposition was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals.

Please refer to the SDS for the most current information regarding the presence of any Proposition 65 listed chemicals.

The Proposition 65 chemical list can be found at:

http://www.oehha.ca.gov/prop65/prop65_list/files/P65single01032014.pdf

Restriction of Hazardous Substances (RoHS)

Innovative Plastics manufactured sheet materials are RoHS compliant with the European Union Directive 2002/95/EC for Restriction of Hazardous Substances (RoHS), the revised Directive 2011/65/EC (RoHS 2) and the latest amendment Directive (EU) 2015/863 and as such does not contain: lead, mercury, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), other polybrominated compound present in the product to a level equal to or less than 0.1% by weight. It further restricts the concentration of cadmium present in the product to a level equal to or less than 0.01% by weight.

Based on the final product composition and the specifications of the raw materials, no RoHS substances are known or expected to be present.

REACH – Substance of Very High Concern (SVHC)

In accordance with Article 59 of the European Regulation 1907/2006 on Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), periodically the European Chemicals Agency (ECHA) publishes lists identifying substances of very high concern (SVHC) as defined in Article 57 of REACH and include in the REACH "Candidate List" for further regulation.

Based on our final product composition and the specifications of the raw materials, Innovative Plastics manufactured sheet is not known to contain substances at greater than 0.1% (reporting threshold) which are identified on the December 2013 candidate list.

Volatile Organic Compounds (VOCs)

In the Clean Air Act, 40 Code of Federal Regulations Section 51.100, the Environmental Protection Agency (EPA) defines a VOC as any compound of carbon excluding carbon monoxide, carbonic acid, metallic carbides or carbonates and ammonium carbonate, which participates in atmospheric photochemical reaction. EPA has excluded many compounds, which have been determined to have negligible photochemical reactivity such as: ethane, methane, methylene chloride, methyl chloroform, perchloroethylene, acetone, and numerous fluorochemicals. Water is not considered a VOC. Innovative Plastics recommends review of State and Federal regulations to determine if a more restrictive requirement exists regarding analytical methods or chemical exclusions during the consideration of VOC content.

Based on the final product composition and the specifications of the raw materials, Innovative Plastics sheet materials are not known or expected to contain substances identified as VOCs.

Conflict Minerals

On August 22, 2012, the U.S. Securities and Exchange Commission ("SEC") issued the final conflict minerals rule under Section 1502 the **Dodd-Frank Wall Street Reform and Consumer Protection Act** (the "Conflict Minerals Rule"). The Conflict Minerals Rule requires companies to report annually the presence of conflict minerals (tin, tungsten, tantalum and gold, or "3TG") originating in the Democratic Republic of the Congo or adjoining countries ("Covered Countries"). Innovative Plastics manufactured products do not contain conflict minerals, or to the extent they may indicate a trace amount, such products are "DRC conflict free" as defined by paragraph (e)(4) of Section 1502.

Bisphenol A (BPA)

CAS#: 80-05-7 IUPAC name: 4,4'-dihydroxy-2,2-diphenylpropane. Based on a review of the final product composition and the specifications of the raw materials, Innovative Plastics products are not known or expected to contain BPA.

Polybrominated Diphenyl Ethers (PBDEs) flame retardant chemicals

PBDEs, also called "brominated flame retardants" are a group of flame retardant chemicals that are added to foam padding, plastics, and fabrics. Common PBDEs are pentaBDE (five bromine molecules), octaBDE (eight bromine molecules) and decaBDE (ten bromine molecules). Based on a review of our final product composition and the specifications of raw materials, our products are not known or expected to contain any of the referenced PBDE chemicals.

Phthalates

Substances in this review: Bis(2-ethylhexyl)phthalate (DEHP), Dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), Diisononyl Phthalate (DINP), Diisodecyl phthalate (DIDP), Di-n-octyl phthalate (DnOP) or Di-n-hexyl phthalate (DnHP). Based on our final product compositions and the specifications of the raw materials, IPI materials are not known or expected to contain substances that are identified as Phthalates.

This information is provided based on internal audits, information from material suppliers, product composition, manufacturing processes and is revised periodically as regulations change. All information is provided in good faith but no warranty, express or implied, is given.
